**FOUR-POST ALIGNMENT LIFT**

**ENGINEERING UNLEASHED™**

quattrolift® 4000

The quattrolift® 4000 WA, together with the wide range of Hofmann® 3D wheel aligners, offers the perfect combination for wheel alignment of all vehicles from passenger cars, SUVs, transporters up to mid-sized vans.

## THE ULTIMATE IN PRECISION LIFTING

### CONTROL UNIT

Clear and easy to understand, with emergency switch and comfort lowering which allows the automatic release of the carriage from the safety lock when lowering the lift.

### JACK (OPTIONAL)

The sliding jack increases versatility as lift also can be used for brake service.

### TURNTABLES (OPTIONAL)

The turnplates are perfectly integrated in the runways and can be placed in 3 different positions to support a wide range of wheel bases.

### SAFETY LADDER

With safety locks every 100mm to set the runways in the locked position for wheel alignment.

### CABLE SYSTEM

The sliding jack increases versatility as lift also can be used for brake service.

### REAR SLIP PLATES

The integrated rear slip plates guarantee that a four wheel alignment can be performed on all vehicles with wheel bases from 1.930 mm up to 4.150 mm. For best sliding performance each slip plate is equipped with 3 sections with a total of 120 rollers.

### RAMPS

With safety locks every 100mm to set the runways in the locked position for wheel alignment.

Contact your representative and discover the best combination with your favourite Hofmann® wheel aligner and turntables as a complete package

Turntables and paddle kit included in special packages
